DETAILED ACTION

Reasons for Allowance

- The following is an examiner's statement of reasons for allowance:

In reference to Claim(s) 1 and those dependent thereon, the examiner agrees with applicant's remarks on page 12, lines 1-3.

In reference to Claim(s) 6, it is noted that applicant's remarks on page 11, lines 13-16 indicates page 4, line 4. However, this is seen to be a typographical error and it is evident that applicant intended to type page 5, line 4. The examiner agrees with applicant's remarks on page 11, lines 13-16 concerning the allowable subject matter indicated on page 5, line 4 of the previous office action.

In reference to Claim(s) 2 and those dependent thereon, the examiner agrees with applicant's remarks (page 12, lines 11-16).

In reference to Claim(s) 7, the prior art does not show that after the locking arms are engaged in the mating connector and after a build up of the spring force, the detent arms are adapted to be moved away from the edge to move the secondary locking mechanism into its final position, in combination with all the other elements of the claim and the examiner knows of no permissible motivation to combine the prior art such that the subject matter as a whole would have been obvious at the time the invention was made.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
